

Elastic Lanyard for Tools 2151

Product information

Elastic strap in soft polyester, and with elastic core. Comes with swivel, weak link and carabiner hook.

This shock-absorbing lanyard is designed and tested to reduce the force on your body if a drop occurs by absorbing the energy transmitted through the tool lanyard.

The low-profile design reduces snag hazards and is made from a durable polyester elastic blended webbing with embedded reflective material. The stitching secures connecting ends for lasting durability.

These tool lanyards are built to withstand defined weight limits and can easily be used by any worker to help avoid accidentally dropping objects that could cause damage or injuries.
