

## **Pillar Jib Crane Articulated PFA**

## **Product information**

Appropriate for an indoor or outdoor use, this articulated jib crane has a very reduced headroom. The first arm can rotate 270° and the second 300°. The articulated structure facilitates the movement of loads in a cluttered environment. This model is restricted to only manual rotations.

Floor fixing is effected by chemical anchors or anchor rods with foundation.

A full range of accessories is available.

## Options

- Installation template + anchor rods (or base plate for chemical anchors, keeping its limitations in mind)
- Hoist power supply cable
- Lockable main switch
- Rotation slowing device (adaptable without welding or mechanical intervention)
- Option of a slowing device on each arm
- Hot dip galvanizing (contact us)
- Rotation stops to weld onto the assembly, or adjustable, on 1 arm
- Single- or multipositions rotation lock (arm 1 only)
- Outdoor use
- Electric or manual hoist
