

Movline Plus HBL hawser 8-part braided

Product information

General: High Breaking Load hawser made from a high tenacity composite fiber, and is extremely strong with good wear resistance and exceptional gripping capabilities. Major features are high abrasion resistance, high strength floating line, no water absorption, good UV resistance and non kinking and non rotating construction.

Design: 8-strand braided

Specific gravity: 0,94 (floats).

Melting point: 165°C.

Elongation: At 25% of MBL = 2,8%. At 50% of MBL = 5,5%.

Standard: ISO 10572
