

Wall Mounted Jib Crane Type VK-I

Product information

We recommend this type of wall jib crane for lifting and handling of loads above 500 kg. Our standard programme has been designed in load groups from 500 kg up to 3.200 kg. All these cranes are designed with an IPE-profile jib arm, which is ideal for use together with an electrical trolley.

The wall mounted jib cranes are assembled with a separate C-profile for cable, hose etc.

Electrical chainhoist: When using an electrical chain hoist we can offer a wide selection of hoists as well as electrical and manual trolleys. We recommend an electrical trolley for this type of crane.

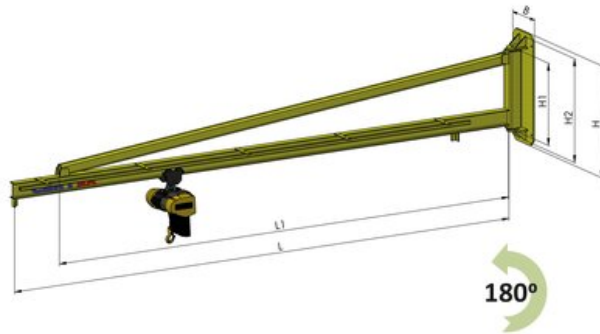

Design: Lightweight welded beam construction providing good torsional stiffness.

Proof load: Usually 1,5 x WLL.

Material: Beam and plate of high-strength structural steel.

Marking: Working load limit (WLL), CE marking, manufacturer, serial number, year of manufacturing, etc.

Finish: Yellow painted. Other treatments available on request.
